The Loan System
STILL CONTINUED AT THE
EMPORIUM

The system of loaning goods to be paid for in stated weekly or monthly installments is a benefit to the purchaser and is a peculiar feature of our establishment. It is a project of our own, prepared for the accommodation of our numerous and increasing customers, and at the same time to protect ourselves against losses by any dishonest parties who might be inclined to take advantage of our desire to give a long credit to deserving persons of limited means. The system is of great value to parties desiring to commence House-keeping, or who may wish to replenish their dwellings this fall, but whose present means are so limited, that they cannot pay at once for which they wish to purchase.

This system gives time and provides for making payments at stated periods in the future. Many persons of limited means, or who have other pressing uses for their money, can pay in future installments for such articles as they may need for the furnishing of their house and not feel the expenditure. When the last payment is made the property becomes their own by a regular receipted bill of sale.

This system does not enhance prices like the old irresponsible credit system, when the honest customer has to pay for the bad debts of the less scrupulous, the unfortunate, or the dishonest who fail to pay! Under this system every customer pays for what he gets; we suffer no loss, and can afford to place our goods upon the market with the very lowest margin of profits.

By this system we are enabled to benefit the worthy of limited income and not injure ourselves. It is simply a system of guaranteed payments, the goods being for a specified time the guarantee of the obligation of the customer.

This system has been a practical working daily success at our EMPORIUM on BROAD STREET for years. Hundreds and even thousands of families having been placed in the possession of comfortable and even richly furnished dwellings, who but for this system of weekly and monthly payments would never have secured them.

Desirous of extending the benefit of this system to others equally worthy, we invite persons desirous of purchasing

(From the New York Citizen.)

At Newport.

BY A. W. CLARKE.

We'll leave the world behind us, at the hop;
How happy all the bright eyed beauties are!
I wish the sullen sea moan would but stop;
We'll stroll upon the beach—light a cigar.

I'll think a little; let me see how old?
Full twenty five; ah me! what have I done?
It makes me shiver and my blood run cold
To think what I did when twenty one.

I loved her—didn't I? I thought so once.
Thought? Knew it—pressed a flower—kept a glove—
Danced a few times—took walks—sighed—what a dunce!
To flirt a little, and to call it love!

Nice girl she was: blue eyes—had soft brown hair;
No humbug—nature—every bit her own
We broke our promise; well—why should I care?—
Confound the sea! I hate its dreary moan.

I had a letter once—a few short lines,
I have it now; if lost, I would have missed it.
'Tis somewhat rumpled; judging by the signs,
I'd say some spooney chap had often kissed it.

Ah, Nettie! those were happy days for me—
How white the surf looks when it strikes the shore!—
I wonder whether we shall ever be
As happy.—Hear the waves, how loud they roar!

I will not listen to the surging sea;
I've thought enough; I wish I could forget
The things those sad toned waves bring back to me!
Love her—my darling? Oh, I love her yet!

No. 76 State St., opp. Kilby St. Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

Boston, Jan. 1, 1871.—1yr.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is **No. 21,** having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted except by quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.
TWENTY YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities,

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than is cured," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

NEWPORT DAILY NEWS.

TUESDAY, Nov. 21, 1871.

Editorial Notes.

Our immaculate English cousins are wasting a great deal of breath on the subject of International Copyright. The accusations which they bring against our publishers, if we were to believe them all, would convince us that the entire class were a set of pirates, fit companions for the bold buccaneers of the deep. They assume that the American people are opposed to the whole system of copyright, and that they prefer to steal their books to buying them. Of course our English friends never steal. They in their honesty would scorn to read the production of an American author without paying the small pittance allotted to writers. English publishers are of course higher toned gentlemen than our own Harpers, Appletons, Osgoods and hundreds of others, we might mention, but we have yet to learn of either of these men publishing the production of an English author without paying him for it, while we have also yet to learn of a single American author, whose writings have been republished in Great Britain, receiving a penny for his work, except possibly Irving, Hawthorne, and a few others who have resided a part of their lives in England, and thereby taken advantage of their copyright law. Hence accusations come in bad grace from that quarter.

New Yorkers, notwithstanding that the Grand Duke is at hand, still find time to talk politics. The great question now is, who shall be mayor of the city and speaker of the general assembly. It is thought that Henry Smith of Albany, an old time Republican, has the inside track for the speakership but the candidates for the mayoralty are legion. Gen. Cochrane and Oswald Ottendorfer, the German leader, are both candidates beside many others. A new candidate for the Governor of the state is now brought forward by a few. D. D. T. Moore of the Rural New Yorker is strongly urged for that position by his friends.

The Palmer-Sheridan contest is not yet at an end, notwithstanding the jury have refused to bring in a bill of indictment against the General. Gov. Palmer has sent a special message to the legislature of the state upon that topic. In this message he makes several inconsistent statements, to say the least, and shows much bitter feeling toward Mayor Mason and General Sheridan. We don't see how the Governor is going to benefit himself by his movements. A jury will not be likely soon to be found, which will condemn Sheridan for doing what the entire nation praised him for doing, and if in the course of the performance of that duty one innocent life was sacrificed, the people will even feel that it was better so, than the consequences might have been, had not the General come to the rescue. By the country at large General Sheridan was long since acquitted of any crime, and it will take more than the machinations of Governor Palmer to convict him.

The Grand Duke Alexis is described as fair, with blue eyes, side whiskers, and above six feet in height. He uses the English language with perfect facility, and strides the deck of his vessel like a "giant among pigmies," chatting and laughing with his brother officers in a particularly unaffected manner.—He stands his watch with the others, and in fact is exempt from no duty that is performed by his brother officers. The only exception made in his favor is that he does not mess with the lieutenants but dines with the admiral. To this party are almost daily added guests from among the officers who receive invitations to be present.

New York has found still another candidate for the Presidency, provided the Democratic party dare attempt to run a candidate of their own. Governor Seymour is laid on the shelf; Governor Hoffman's chances have for a long time growing beautifully less and some new man must be found or New York give up the idea of having a president of her own. But just at this juncture in comes the Republican party and nominates a man for them, or rather two men, between whom they can choose for themselves. Mr. Charles O'Conor, the eminent Democratic lawyer, and life long pro-slavery man, the Post thinks worthy the suffrages of the people. Why? because for once, and only once, in his life he came forward and aided the friends of reform in overthrowing the Ring. Who will say that republics are no longer grateful? If O'Conor don't suite them the Post and Tribune have another candidate for that party in the person of Mr. Samuel J. Tilden, who has always been a party politician of the strictest kind, and a shrewd party organizer. Either of these men may do very well for Democratic standard bearers but we fail to see the claims that these papers indicate they have to the suffrages of the Republican party.

Salaries of Teachers.

We copy the following from the Journal of Education. In doing so we remark that the monthly compensation of female teachers is overstated; for not only is the monthly sum less in many instances, but the miserable trashy warrants which they are compelled to accept, in many instances reduces the nominal salary to at least twenty-five per cent, and all this that officials may make haste to get rich.

The following table presents the monthly salary of school teachers throughout the United States for the year 1870:

	Men	Women.
Arkansas	$80 01	$70 00
California	81 35	62 81
Connecticut	58 74	29 16
Illinois	42 49	32 80
Indiana	37 00	28 46
Iowa	36 96	27 16
Kansas	37 00	28 08
Louisiana	112 00	76 00
Maine	32 00	14 00
Maryland	43 00	43 00
Massachusetts	71 44	30 92
Michigan	47 61	24 35
Minnesota	33 94	22 45
Missouri	38 60	29 81
Nebraska	34 72	33 00
Nevada (coin)	118 75	92 16
N Hampshire	36 01	21 62

It will be noticed that an average of these rates would give to men teachers, for precisely the same work, from 30 to 50 per cent. more than women. It will also be noticed that the Western States are more advanced in their ideas of justice than the Eastern; and that Nevada pays four times as much as New Hampshire. The average of salaries paid to teachers of both sexes in New York is about $63, while in the city of New York it is a little higher.

Stephen Pearl Andrews states clearly enough that "the Absolutoid and Abstractoid Elementismus of Being echoes or reappears by analogy, within the Relatoid and Concretoid Diaborismus." We really don't know whether to agree with him or not.

The Supreme Court of Illinois is not up with the times. It has gruffly and positively refused to permit a woman, admitted to be competent as an advocate, to practice at its bars.

Smith left the following, and then left himself: Why is the talk about a row with Spain over the Hornet affair like the steamer that takes General Sherman abroad? Because it's war "bosh!"

Wendell Phillips says that "there is hardly any ordinary trade, or kind of manual labor, used in New England, at which I have not done many a day's work" and that "his father's rule for his children was, "Ask no man to do for you anything you are able and willing to do yourself."

A young student of Baliol College, Oxford, has put an end to his existance by a pistol shot, and was found lying dead in his arm-chair. The Earl of Elgin, a fellow-student and particular friend, said that he had smoked a cigar with the deceased in his previous evening, when he complained of acute pain in his head. His father gave evidence in support of the assumption that the state of his son's body had affected his mind, and a verdict was given accordingly.

The Result of not Reading the Papers.

A fire in Saratoga county, N. Y. the other day destroyed property on which there was an insurance of $2,500. The owner tripped lightly into the office where his policy was drawn, and producing the document, said he guessed he would take that money. The agent looked at it, expectorated a quantity of tobacco juice on the caller's boot, and then exclaimed: "Why in thunder don't you read the papers? I gave notice a fortnight since in the public press that the company went down—flat busted when Chicago went up. Had you read newspapers you could have renewed your policy in a company that hadn't exploded, and been so much in. As it is, you are so much out."

The Chicago Tribune says: "A singular reminder of the approach of winter comes to us from Utah. In a canon of the Big Cottonwood mountain—a locality famed for its silver mines—the snow, for two or three days last week, fell with great rapidity, and now lies over four feet deep on a level, with huge drifts thirty feet high. A large force of miners were caught by this storm far up the canon, and fears are entertained for their safety. It appears that no one expected so severe a snow storm so early in the season, hence the miners were not properly supplied with provisions. They can find shelter in the mines, and in their mining huts; but already it is thought they have eaten all the food they had on hand. Half a dollar a pound was offered to teamsters and packmen to carry them feed, but no man dared attempt the passage."

About Home.

Street cleaning is the order of the day just now.

The Court of Common Pleas commences its session today.

The balconies on the Perry House are a great improvement to the appearance of the building.

The grand reception of the Duke Alex is takes place, today. The weather is all that could be desired for the occasion.

We have received from W. P. Clarke 174 Thames Street, the December number of the Atlantic Monthly, a notice of which will be found in another column.

Next Thursday evening "Help" will be performed at the Opera House by Joseph Murphy. We are assured that the performance will be a good one.

The December Magazines show great improvement on the proceeding numbers. Perhaps like a cheap boarding house they improve their fare towards the end of the year that their boarders may renew.

It is reported that Mr. John Gladding and others of the crew of the brig John Pierce, which sailed from here a few weeks since, for Havana, are sick with the yellow fever.

The great attraction at the Opera House, tonight, will be Villa & Miner's Comic Opera & Comedy Troupe. This troupe have many prime actors, and will without doubt give a first class entertainment of the kind.

The small pox patients are improving There are no new cases reported.—Mrs. Stacy is now in a fair way to recover. Mrs. King has a very mild form of the disease, and the other cases are equally light.

We are indebted to Mr. Geo. Rice, for a late number of The Scotsman, published at Edinburgh, Scotland. Mr. Rice is the son of Mr. Geo. A. Rice of this city and is at present a student in the Medical School of the Edinburgh University.

Our Providence friends seem to take but little interest in politics at the present. Yesterday, an election was held for the purpose of choosing a representative to the General Assembly, from that city. The vote stood, for Douglas, the successful candidate, 355, for Watson, his opponent, 64, and 11 scattering. How is that for a city of fifty thousand inhabitants?

A movement is on foot to secure a temperance library to be under the charge of the Young Samaritans, a juvenile temperance organization in this city. Their hall is in Young's block, and very advantageously located for the purpose. Persons responding to the call for help will confer a favor, and be of service to the cause. Meetings are held every Wednesday evening.

Real Estate Sales.—George W. Gibbs et al. have sold a lot of land 200x200 feet, on Gibbs avenue, to William B. Rogers, of Boston, for $10,000.

William H. Sherman has sold to Thomas D. Sullivan a lot of land 100x100 feet, on Spruce street, for $1,000.

William A. White has sold to Hannah Rudolph a lot of land 100x100 feet, with buildings, on Elm street, for $1,500.

Thieving.—A subscriber informs us that a system of very small swindling has been practiced in this city, within a few days, by a man representing himself as the subject of the "Washington Machine Twist" Company, who sells spools of twist, bearing a printed label, saying they have, each, on them one hundred yards of thread, when, in fact, by actual measurement, they have but twenty five yards. Let our lady friends beware of this petty humbug. Moral: patronize your own merchants instead of lying pedlars.

Wedding.—Notwithstanding the inclement state of the weather, a large number assembled at the Second Baptist church last evening, the occasion of which being the marriage of Mr. Simon Newton, of Chicago, formerly of Newport, to Miss Ella S. White daughter of Geo. L. White, Esq., of this city. The marriage ceremony was performed by Rev. C. H. Malcom. The bride was dressed in an elegant drab travelling suit, very tastefully trimmed. They took the boat for New York and thence they will proceed to Chicago. Their many friends will wish them a pleasant journey and a long and happy life.

The Aquidneck House.—The improvements which Mr. Rider is making upon this house will add very much to its appearance as well as value. The inside of the building is being thoroughly renovated and made new; the hall, which was formerly used as a billiard saloon, is now being made into a hall again, to be called the Aquidneck Assembly Rooms. This Hall will be put in the best of order, and will form an excellent place for lectures, balls or public gatherings of any kind.

Mr. Rider informs us that he expects that the house will be open as a hotel as soon as the repairs are completed.

The New Washer.—We feel that the "Home Steam Washer" which we mentioned last week deserves a still further commendation from us, for it is one of the few inventions that will bear commendation. We have tried the machine and know of its workings, and we have no hesitation in saying that it will do all that its inventors claim for it. With this washer the services of the wash-woman can be dispensed with; all the troubles and trials of washing day are made easy; the wear and tear of the clothes from rubbing is done away with, and in short, your washing is done easily, quickly and neatly. The machine has been tried by many of the first families in town, and all agree in pronouncing it a great improvement in the washing line.

One quaff of the new Canada thistle whisky is said to prolong the exhilaration for thirty hours.

Charleston is rejoicing in a "sharp frost," and the consequent disappearance of the yellow fever.

An Inquiry.

Mr. Editor: Can you tell why it is that the lantern on the corner of Marlboro' and Charles streets is so frequently left a *dark* lantern? Last night all around the streets, lanterns were lighted while this one was not. If ever it is needed certainly it was in such a dark storm as we had then. The number of persons passing through Marlboro' street is large more especially when the church is open for service. Somebody needs prompting. Who is it?

[We will refer our inquirer to the police department, for they as yet have the lighting of the street lamps. Ed.]

Court of Common Pleas.

There was quite a gathering at the State House this morning in attendance on the opening of the Court of Common Pleas, but by some mishap Judge Burgess was left behind, and nothing could be done. After some consultation Deputy Sheriff Lake announced that the jurors and witnesses were dismissed until 3 P. M. when it was thought the presiding Judge might possibly arrive. Soon after a dispatch was received by the clerk, Dr. Wood, directing an adjournment until five o'clock, at which hour the grand jurors are required to be present. The petit jurors will not be wanted until 9 A. M. tomorrow.

Thrift.

In passing through the country, why is it that we see only a few farms that seem to be well fenced, and on which the dwellings and other farm building are in good repair? These few farms are always free from weeds, and invariably yield good crops of all kinds. The owners of these premises attend to their business. They make a business of farming. They get their crops in at the present season, and harvest them when they are properly matured. Their cash account is always in their favor, the balance being on the right side. They have no time to waste at the taverns or groceries. If they have spare time, it is devoted to reading and self culture. They always subscribe and pay for their local paper first, and others are not discarded.—They and their families are well informed upon the current topics of the day. Their children are educated, well clad, and well bred. These men are the substantial and influential men of the town. They keep it respectable. They support the schools and the churches. These are the men to whom the country ever looks in time of need.—They always have opinions upon subjects, and their views are never in the market.—Ever open to conviction, never to corruption, they may sometimes be a little exclusive, but they are ever ready to assist their less favored neighbors to rise to the same plain upon which they stand. They are reserved but true, cautious but sure, and they constitute the hope and the safety of our republic.

Clearness of the Northern Seas.

Nothing can be more surprising and beautiful than the singular clearness of the water of the northern seas. As we passed slowly over the surface, the bottom, which was here in general of white sand, was clearly visible from twenty to twenty five fathoms. During the whole course of the tour I made, nothing appeared to me so extraordinary as the immense recesses of the ocean, unruffled by the slightest breeze, the gentle splashing of the oars scarcely disturbing it. Where the bottom was sandy, the different kinds of asteriæ, echini, and even the smallest shells appeared at the greatest depths conspicuous to the eye; and the water seemed in some measure, to have a magnifying power, by enlarging the objects like a telescope, and bringing them seemingly nearer. Though moving on a level surface, it seemed almost as if we were ascending the height under us, and when we passed over its summit, which rose in appearance, to within a few feet of our boat and came again to the descent, which on this side was suddenly perpendicular, and overlooking a watery gulf as we passed gently over the point of it, seemed almost as if we had thrown ourselves down this precipice; the illusion, from the clearness of the deep, producing a sudden start. Stock.

How much stock ought I to keep upon my farm? Just all that your farm can support. Keep all the stock that your hay, stalks, straw, roots, and other crops can feed. Sell nothing from your farm except stock. If you dispose of any grain, do it for the purpose of buying more feed for your stock. Be sure that every animal is kept in a thriving condition. Have no starveling on your premises. Feed liberally or your returns will not be the best possible. Have your stock in such condition that a portion of it will at all times be ready for market. By this means, you may always have a liberal supply of rich manure, which will enable you to keep your land improving year by year, and secure the most desirable results from it.

Several cities are contending for the next national republican convention, among which St Louis, Boston, Cincinnati and New York are the most prominent. A Washington despatch says leading citizens of Boston who are urging the claims of the hub upon the national committee have thus far not met with any discouragement. It is expected that the question will lead to a warm discussion when the committee convenes in January.

Our Boys and Girls comes to us this month with its pages well filled as ever.—This is the prince of magazines for young folks. We consider this and Our Young Folks to be the two really first class boys, and girls' magazines published in this country.—In the present number Oliver Optic's charming story "Bivouac and Battle" is finished, as also is the "Doctor's Daughter" and the "Sophomores of Radcliffe." Next month we are promised another installment of Phil Farringford, and Elijah Kellogg will give us "The Graduates of Radcliffe." Besides these there will be the usual amount of other good things.

The Atlantic Monthly for December contains—Light and Darkness, by John Fiske; The Legend Beautiful, by Henry W. Longfellow; Kate Beaumont, (conclusion,) by J. W. DeForest; A Japanese Doctor and his works, by E. H. H.; Watch and Ward, part V., by Henry James, Jr.; Shasta, by Clarence King; Their Wedding Journey, (conclusion,) by W. D. Fields; The Princess Bob and her friends, by Bret Harte; Recent Literature.

This number ends the present volume. The next volume, commencing with the January number, will have many attractions not pertaining to the preceeding volumes. Besides the new features already mentioned in these columns the editorial department will be greatly enlarged and will include 1. a full survey of current American, English, French and German literature; 2. monthly comment on the more noteworthy aspects of political affairs; 3. notice of musical events and a candid review of popular music; 4. discussion of art and artists; 5. resume of scientific progress. Published by James R. Osgood & Co. Boston, and for sale at Clarke's news rooms.

Harper's Magazine, for December contains its usual amount of interesting reading matter. Some of the most valuable articles are, The Eternal City, by Lyman Abbott; The First American Exploring Expedition, by A. E. Carrell; The Old Norse Colonies of Greenland, by Dr. I. I. Hayes; The American Barron, concluded, and a sketch of Henry Brougham, by A. R. Macdonough. Besides these there are a host of other articles of great value. This number of the magazine commences a new volume, and it bids fair to be superior to any of its predecessors.

Four Evils.—Whoever habitually uses any alcoholic preparations as an "appetizer" will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the pangs of dyspepsia, and a doctor's bill. Dr. Walker's Vegetable Vinegar Bitters, the great Teetotal Restorative of the age, without over-stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus, instead of entailing four evils confers four inestimable benefits. nov20-1w

[Special Dispatch from New York.]

The Grand Duke Has Arrived!

The fleet is in fine condition. The Duke sent his card with the Emperor's compliments to the city authorities this morning. The fleet has been under easy sail for the past two weeks in consequence of the illness of Rear Admiral Bogolski, Chief of Staff, who is unable at present to leave his ship. Mayor Hall tendered the sympathies of the nation, and sent him at once a box of the **Quaker Bitters**, which will doubtless relieve the distinguished Russian.

What Dyspepsia May End In.

Indigestion is not dangerous, say the faculty—Perhaps not in itself, while it remains mere indigestion; but look at the consequences to which it may lead, and often does lead when it becomes a chronic disease. A spark of fire is a small thing. A pressure of the foot will put it out; a breath will extinguish it. Yet it may fire a powder mill, or kindle a blaze that will consume a city. In like manner indigestion may produce gastritis, cancer of the stomach, congestion of the bowels, apoplexy, liver disease, and many other dangerous maladies. Is it not wise, then, to check it in the germ? Nothing is more clearly and indisputably established than that Hostetter's Stomach Bitters will eradicate dyspepsia in all its stages. The true policy, however, is to extinguish it in the first stages with this wholesome, powerful, and infallible tonic and alterative. It is easier to quench a spark than a flame, and it is easier to cure dyspepsia when it is first developed, than when it has made headway by neglect, and become complicated with other ailments. There is not the shadow of a doubt that the bitters are as directly antagonistic to dyspepsia as water is to fire. There are thousands of cases on record proving this fact. The remedy is safe and agreeable. All the liquors of commerce prescribed as stimulants, leave a sting behind. But the sting is taken out of the spirituous basis of this great remedy by vegetable medication, and, moreover, the stimulant thus medicated is of exceptional purity. Of all tonics taken as safeguards or remedies for fever and ague, bilious complaints, and other fall epidemics, it is the only one that can uniformly be depended upon.

BETTER AND CHEAPER
than any other
Boots or Shoes:
THOSE FASTENED WITH
CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Waterproof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

Sold by Dealers Everywhere.

Providence, Aug. 2d, 1871.
Messrs. FLINT & CO.—Gentlemen—You ask for my opinion of Old Dr. Warren's Quaker Bitters. As I have never used them I can not speak from personal knowledge, but the general speech of the people is marked and strong in their favor. I have so far satisfied that they are a pure, safe and effective alternative and tonic, that I have ordered a case of them sent to my aged mother. Their reputation is pure with their sales, and as they are scientifically compounded of the best ingredients, they are not to be classed with the great variety of nostrums palmed off on a suffering public by quacks.
Yours truly, Hon. SIDNEY DEAN.

GOOD HEALTH.

Strong as is man's desire for wealth,
Far more to be desired is health;
Without that he may life enjoy,
But want of this will life destroy;
Then of your health take proper care,

If something good your time employ,
Let Boys be "dressed" in good warm "Clothes,"
Protecting them from head to feet,
Which they can buy at George Fenno's,

PROVIDENCE, R. I., Feb. 11, 1870.

I have used "Dr. Bullock's Nephreticum" for several months past for a disease of the Kidneys and Bladder of ten years standing. During all that long and gloomy period I suffered at times attacks of the most excruciating pains and tried all kinds of medicines and many eminent physicians, with little relief at times, yet with no permanent, lasting benefit. At last I was induced to try "Nephreticum," and after continuing its use for a considerable period of time, I began to be benefited, and now I feel satisfied that I have obtained permanent, and, I trust, lasting relief. I still take "Nephreticum" and give to my friends. For a year past I have had no severe attacks of disease. I feel it has given me a new lease of life, and I most cheerfully and confidently recommend "Nephreticum" as a reliable, safe and sure remedy for diseases of the Bladder and Kidneys.

"STOVES."

If You Want a Parlor Stove buy the

Beacon Light Base Burner,

Beautiful, Powerful and Economical!

A cheerful fire, with great power of heat, soft as that of summer.

Who studies comfort, will have the BEACON LIGHT; for with this there will be no freezing the feet and roasting the brain; and no dry parched air.

WHO STUDIES CONVENIENCE, will have the BEACON LIGHT; for there will be no complicated flues, no clogging, no clinkers, no dust, no gas, no laborious effort to keep the fire clear of ashes and slate, and no trouble to keep fire all winter, without rekindling.

WHO STUDIES TO HAVE THINGS BEAUTIFUL to look at, will select the BEACON LIGHT.

WHO STUDIES ECONOMY will select the BEACON LIGHT.

WHO KNOWS THE BENEFIT of experience, and study of scientific principles, will select the BEACON LIGHT.

Who wants the stove as *conspicuous above all others*, in the office, the parlor, and the sick room, as is the light of the "Beacon," above the lights of the huts on the shore, will surely select the BEACON LIGHT BASE BURNER.

TELEGRAMS.

NEW YORK.

THE GRAND DUKE ALEXIS.

THE RECEPTION ACCEPTED FOR TO-DAY.

A Balked Reception.

Nov. 20.

It appears that the reception committee of the Grand Duke did not go to the lower bay in steamer Mary Powell, but met the Russian fleet coming up under the escort of the American fleet. The Grand Duke has accepted a public reception for tomorrow, until which time he remains on board the Svetlana.

Want of a definite plan, and storm marred the ceremonies in honor of Alexis, today.—The Mary Powell, with invited guests, did not leave the pier until noon, and then only to find the Russian fleet, escorted by the American, had arrived off the battery. A barge from the Russian flagship brought an officer to know what the committee wanted.

Minister Catacazy went aboard her and was received with the salute due his rank.

Thundering salutes from the Russian and and American flagships greeted the guests on their arrival and departure. The yards of the Svetlana were manned, and the cheering of the crew was hearty.

At two o'clock this (Tuesday) morning, the weather was clear and the prospect of a fine day for the reception.

The Russian Grand Duke's Visit to the Capital.

WASHINGTON, Nov. 20.

No information is yet received by the government officially stating that when the Grand Duke Alexis will arrive here. Arrangements for his presentation to the President will be made by Secretary Fish and Minister Catacazy, and the presentation will probaly take place on the day succeeding his arrival at noon.

There will be no formal speech making, and no public display at the presentation, which will take place in the blue room. The President will be attended by the Cabinet, and the Duke by his suite and Minister Catacazy, who will introduce him to the President and Cabinet. Then he will be escorted to the red room and presented to Mrs. Grant, and after a short time spent in conversation will retire and return to New York the next day. Gen. Sheridan is of opinion that the Buffalo hunt for the Duke will have to be abandoned owing to the lateness of the season.

A GREAT MEDICAL DISCOVERY.

MILLIONS Bear testimony to their Wonderful Curative Effects.

DR. WALKER'S CALIFORNIA

J. WALKER, Proprietor. R. H. McDONALD & Co., Druggists & Gen. Agents, San Francisco, Cal., and 34 Commerce street, N. Y.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER** and **A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

J. WALKER, Proprietor. R. H. McDONALD & CO. Druggists and Gen. Agents, San Francisco, California, and 32 and 34 Commerce Street, New York.
